

## **TESTIMONIES OF THE HEALING SERVICE**

**DATE: 3 AUGUST 2014**

### **SISTER PROGRESS HOSHIKI – DIVINE HEALING**

My sister had been very sick and in severe pain. She was complaining of lumps in her breast. They did so many tests on her and they did not find anything. This year, however, they found that she has breast cancer. I did not receive the news well. As I called and talked to my sister, she told me 'sister I am dying'. I went on to tell Bishop (Prophet) Noah and he prayed with me. She was then scheduled for an operation on July 22 2014. I went on to tell Bishop Noah again and his response was 'it is well. Let us pray for her, distance is not a barrier'. We prayed. On July 22<sup>nd</sup>, I waited all day to hear how the operation went. Evening came and I called, and I was told that the operation is cancelled.

### **ELDER ROD DE GUZMAN**

I can boast of my healer for He is a great God. The song we sang this morning, 'He holds the key to my life' is an outline of my testimony. One month ago during Men's Fellowship I received news that I will preach on Men's Fellowship Sunday. I was very much excited. The day before I were to preach, I got measles. When you are down and out you want to hear from God. I thank God that I have a prophet in this church and he has been dear to my heart since the year 2005. I go to him to pray for me in such a manner, but he being led by the Spirit of God prays in another manner. I had nerve compression, which is why I had to wear a neck collar. The doctor said that if I do not get better in 10 days then he will have to operate. Again, the song 'when God says yes no one can say no' is true. My Bishop (Prophet), being led by the Spirit of God, prayed and cancelled the operation. The doctor said the operation must go on, God said no.

I want to thank all my prayer partners for each time my phone rings it brings strength to my body because I can feel the love. It is this love that brings healing. I am thankful to my wife for treating me like a king. I thank my God for He is powerful. This testimony is one of many. It is the fresh one, hence me sharing it today. I thank God for our prophet. God speaks to us, and he is our channel. Remember when God says yes no one can say no. Continue with the love and abiding in love as a congregation.

### **DEACONESS CHIFWALO**

I have been suffering for eight years. After giving birth to my son, Benjamin, my right hand would become painful to the extent of not feeling anything. My husband suggested that it might have been as a result of the drip that was inserted on my arm at the time of me giving birth. When winter came, I would cry. If I hold cold water, it was like a sharp knife was being passed through. I will lift things with my left hand. When I cook nsima, I would just leave it half way. During the healing service I said to myself that 'today is my day, I also want to testify'. I stood at the altar. Bishop (Prophet) Noah asked me 'what shall I pray for'. I stretched out my right hand and he saw the growth. He then put anointing oil and commanded it out in Jesus name. Since that day the pain is no longer there.
